

Drum Course

TMA's comprehensive and complete drum course structure guides learners to experience a range of techniques across many styles. The course introduces parts of the drums, drumstick techniques, snare drum rudiments, accents, dynamics, drum fills, cymbal crashes, and bass drum beats.

Upon completion of the foundations, students will begin to develop the knowledge of groove playing, notated fills, syncopated eights, and sixteenth-note grooves.

Our drum classes are open to adults and kids. Suitable for new learners to advanced learners. Our professional instructors will train drum theory and drum techniques to help you embark on an incredible journey of practical drum methods and percussion techniques!

Course Content

- Proper techniques and posture in drumming
- Drum rudiments for stylised techniques and versatility
- Reading drum scores and understanding musical terms
- Various rhythm styles and variations, ideas for drum fill-ins
- Progressive exercises for stick control, footwork, and coordination
- Wide repertoire an of Pop, Rock, Latin, and other contemporary styles using backup tracks
